SUBJECTS

Abstracts from *Ann Intern Med*, 314

- Achalasia, pneumatic dilatation as primary treatment for, 353
 Adenocarcinoma, papillary thyroid, solitary lateral cervical cyst as presenting symptom of, 521
 Adenoid cystic carcinoma of subglottic region, 491
 Adenolymphomas, malignant transformation of, 49
 Aerodigestive tract, upper, unusual presentations of penetrating foreign bodies of, suppl 105:32
 Allergy, nasal, morphological alterations affecting microvasculature in, 70
Ann Intern Med, abstracts, 314

- Alpha₁-antitrypsin deficiency, middle ear disorders in patients with, 300
 Ameloblastoma of maxilla and peripheral ameloblastomas (Pathology Consultation), 532
 Amino acids, evidence for differential distribution with frozen-section autoradiography of cochlea, 254
 Aminoglycoside antibiotic ototoxicity, alteration of, effect of semi-starvation, 178
 Amyloidosis, laryngeal, and laryngocele, 337
 Anastomosis, tracheal, intralaryngeal release for, 482
 Anemometry, laser, experimental study of velocity fields in hu-

- man nasal fossa by, 231
- Aneurysm, petrous carotid (X-ray Study of the Month), 207
- Antibiotics, steroids and, in treatment of acquired subglottic stenosis (canine model), 377
- Aortic arch anomaly, rare, causing intermittent tracheal obstruction: aortic wheeze, 383
- Aortic wheeze: intermittent tracheal obstruction caused by rare aortic arch anomaly, 383
- Apnea, sleep, evaluation of adult with, 518
- Arachnoid cyst in internal auditory canal, 535
- Ataxia, Friedreich's, frequency selectivity and temporal processing in, 276
- Atresia, congenital laryngeal, histopathologic study of, 391
- Audiometry, brainstem evoked response, 183
- Auditory brainstem potentials, follow-up study of hearing loss after *Hemophilus influenzae* meningitis with, 272
- Auditory brainstem responses, in children with early recurrent middle ear disease, 249
 - With high stimulus rates in normal and patient populations, 119
- Auditory canal, internal, arachnoid cyst in, 535
- Auditory function in children with diabetes mellitus, 237
- Auditory meatus, internal, tumors of, differential facial nerve function in, 39
- Auditory system, update on evaluation of, 651
- Autograft, sleeve, in congenital cholesteatoma, 571
- Autoimmune sensorineural hearing loss, type II collagen-induced, and vestibular dysfunction in rats, 267
- Autoradiography of cochlea, frozen-section, evidence for differential distribution of amino acids, 254
- Basophilic** deposits in stria vascularis, 242
- Bell's palsy, peripheral blood T and B lymphocyte subpopulations in, 187
- Bimorph, piezoelectric ceramic, perception of sound through direct oscillation of stapes with, 223
- Book Reviews**
 - Brackman DE, *Neurological surgery of the ear and skull base*, 213
 - Cody DT, Kern EB, Pearson BW, *Diseases of the ears, nose and throat: a guide to diagnosis and management*, 213
 - Evered D, Lawrenson G, *Tinnitus*, 411
 - Gelfand SA, *Hearing: an introduction to psychological and physiological acoustics*, 411
 - Lorente de N6 R, *The primary acoustic nuclei*, 212
 - Moldaver J, Conley J, *The facial palsies: their physiopathology and therapeutic approaches*, 410
 - Paparella MM, Meyerhoff WL, *Sensorineural hearing loss, vertigo and tinnitus*, 316
 - Syka J, Aitkin L, *Neuronal mechanisms in hearing*, 316
- Brainstem auditory evoked potentials in patients with cerebellopontine angle tumors, 645
- Brainstem conduction abnormalities in spasmodic dysphonia, 59
- Brainstem evoked response audiometry, 183
- Brainstem potentials, auditory, follow-up study of hearing loss after *Hemophilus influenzae* meningitis with, 272
- Brainstem response, auditory, high stimulus rates in normal and patient populations, 119
 - In children with early recurrent middle ear disease, 249
- Bronchoalveolar lavage, clinical utility in assessment of interstitial lung disease, 362
- Bronchoscopic removal of puncture vine fruit, bilateral pneumothorax resulting from, 396
- Bronchoscopy, use in staging and evaluation of head and neck carcinoma, 373
- Canal**, petromastoid, 640
- Canine fossa puncture, irrigation of maxillary sinus by, 528
- Carbon dioxide laser, incendiary characteristics of endotracheal tubes with (Letter to Editor), 211
- Carbon dioxide laser surgery, posterior commissure laryngoscope for, 361
- Carcinoma, adenoid cystic, of subglottic region, 491
 - Base of tongue, preoperative irradiation and surgery for, 485
 - Ex lymphoepithelial lesion, 657
 - Head and neck, role of esophagoscopy in evaluation of patients with, 369
 - Use of bronchoscopy in staging and evaluation of, 373
 - Metastatic, of thyroid to sphenoid sinus (X-ray Study of the Month), 309
- Nasopharyngeal, evaluation of negative pressure suction method in cytodiagnosis of, 67
- Oropharyngeal, secretory immune response in patients with, 295
- Pancreas, presenting with bilateral tonsillar metastases, 192
- Primary squamous cell, of major salivary glands (Pathology Consultation), 97
 - Of middle ear, invading cochlea, histopathological case report on, 290
- Cerebellar and combined cerebellobrainstem diseases, eye movements in, 165
- Cerebellobrainstem diseases, combined, and cerebellar diseases, eye movements in, 165
- Cerebellopontine angle tumors, brainstem auditory evoked potentials in patients with, 645
- Cervical cyst, solitary lateral, as presenting symptom of papillary thyroid adenocarcinoma, 521
- Cervical thymus, thymopharyngeal duct cyst as form of, 284
- Chemodectoma of cheek, 109
- Cholesteatoma, congenital, sleeve autograft in, 571
 - Temporal bone fractures and, 558
- Cholesteatoma sac, organic acids and anaerobic microorganisms in contents of, 91
- Clavicle, osteomyelitis of, 525
- Cochlea, frozen-section autoradiography of, and evidence for differential distribution of amino acids, 254
 - Pathology, in chronic suppurative otitis media, suppl 103
 - Primary squamous cell carcinoma of middle ear invading the, histopathological case report on, 290
- Cochlear implants. *See* Implants, cochlear
- Cochlear prostheses. *See* Prostheses, cochlear
- Collagen-induced autoimmune otospongiosis, type II, 103
- Collagen-induced autoimmune sensorineural hearing loss, type II, and vestibular dysfunction in rats, 267
- Compound action-potential tuning curves in normal and acoustically traumatized cats, 496
- Computer reconstruction, three-dimensional, of distribution of neuromuscular junctions in thyroarytenoid muscle, 424
- Congenital ear malformations, management of, 504
- Congenital heart disease, acyanotic, tracheobronchial compression in, 387
- Congenital laryngeal hemangioma, 448
- Congenital laryngeal webs, 317
- Congenital subglottic hemangiomas, clinical-pathological correlates of, suppl 105:4
- Cyanoacrylate glues, evaluation of three for use in ossicular reconstruction, 29
- Cyst, arachnoid, in internal auditory canal, 535
- Epidermoid, of vocal cord, 124
- Thymopharyngeal duct, as form of cervical thymus, 284
- Cytodiagnosis of nasopharyngeal carcinoma, evaluation of negative pressure suction method in, 67
- Cytomegalovirus, subclinical, hearing impairments and vestibular abnormalities among children with, 552
- Deaf**, psychological problems of the, 8
- Deafness, conductive, and histological findings of removed stapes in Klippel-Feil syndrome, 202
- Diabetes mellitus, auditory function in children with, 237
- Dilatation, pneumatic, as primary treatment for achalasia, 353
- Dilation, new technique for, 360
- Dissection, functional neck, 215
- Drowning, salt water, and temporal bone findings, 134

- Dysphagia, ectopic gastric mucosa in upper esophagus as cause of, 65
- Dysphonia, spasmodic, brainstem conduction abnormalities in, 59
- Spastic, laryngeal nerve crush for, 469
- Ear**, clinical applications of electrical stimulation of, 621
- Electrical stimulation of, experimental studies of, 614
- Inner, high-voltage electron microscopic study of, suppl 101
- Malformations of, mesodermal induction defect as possible cause of, 160
- Middle, autonomic innervation of, 151
- Fluid in chronic secretory otitis media, immune complexes in, 42
- Primary squamous cell carcinoma of, invading cochlea, histopathological case report on, 290
- Prolonged ventilation of, 582
- Selective induction of macrophages in, 510
- Ear canal and mastoid, care of, 566
- Ear disease, middle, early recurrent, auditory brainstem responses in children with, 249
- Ear disorders, middle, in patients with α_1 -antitrypsin deficiency, 300
- Ear malformations, congenital, management of, 504
- Ectopic salivary calculus (X-ray Study of the Month), 530
- Editorial, 1
- Electrical stimulation of ear, clinical applications of, 621
- Experimental studies of, 614
- Electrocochleography, transtympanic, diagnostic significance in Meniere's disease, 155
- Electron microscopic study, high-voltage, of inner ear, suppl 101
- Endolymphatic hydrops, overview and classification, suppl 106
- Endolymphatic sac surgery for Meniere's disease, 113
- Endotracheal tube, metal, Venturi jet ventilation through: non-flammable system, 405
- Quantification of intralaryngeal pressure exerted by, 444
- Endotracheal tube fires, laser-ignited, comparison of tracheal damage from, 333
- Epidermoid cysts of vocal cords, 124
- Esophageal dysfunction in patients with contact ulcer of larynx, 228
- Esophagoscopy, role in evaluation of patients with head and neck carcinoma, 369
- Esophagus, giant intraluminal polyps of, 344
- Eye movements in cerebellar and combined cerebellobrainstem diseases, 165
- Facial** nerve function, differential, in tumors of internal auditory meatus, 39
- Fiberscopic and telescopic documentation, comparison of: video-laryngoscopy, 430
- Fistulae, benign, between Zenker's diverticulum and the trachea, management of, 349
- Fistulization, postoperative, salivary scan after major ablative head and neck surgery with prediction of, 366
- Foreign bodies, penetrating, unusual presentations in upper aerodigestive tract, suppl 105:32
- Posttraumatic radiolucent (X-ray Study of the Month), 408
- Frequency selectivity and temporal processing in Friedreich's ataxia, 276
- Friedreich's ataxia, frequency selectivity and temporal processing in, 276
- Ganglion**, spiral, cochlear implant effects on, 53
- Gas absorption in serous otitis, 305
- Glomus jugulare tumor, abnormal venous drainage simulating, 199
- Glottographic measurement of vocal dysfunction, 413
- Glycerol, urea, and mannitol tests, effects of hyperosmolar solutions on labyrinthine fluid pressures and, suppl 104
- Granulomatosis, Wegener's, of subglottis and upper portion of trachea (Letter to Editor), 412
- Hearing**, effects of intermittent exposure to noise on, 623
- Hearing impairments and vestibular abnormalities among children with subclinical cytomegalovirus, 552
- Hearing loss after *Hemophilus influenzae* meningitis, follow-up study with auditory brainstem potentials, 272
- Type II collagen-induced autoimmune sensorineural, and vestibular dysfunction in rats, 267
- Heart disease, acyanotic congenital, tracheobronchial compression in, 387
- Hemangiomas, congenital laryngeal, 448
- Congenital subglottic, clinical-pathological correlates of, suppl 105:4
- Hemophilus influenzae* meningitis, hearing loss after, follow-up study with auditory brainstem potentials, 272
- Hydrops, endolymphatic, overview and classification, suppl 106
- Hyperosmolar solutions, effects on labyrinthine fluid pressures (glycerol, urea, and mannitol tests), suppl 104
- Hyperthermia, effect on laryngeal closure reflex and implications in sudden infant death syndrome, 24
- Hypoplasia, mandibular, difficult laryngoscopy/intubation in child with, 401
- Immune** complexes in middle ear fluid in chronic secretory otitis media, 42
- Immune response, secretory, in patients with oropharyngeal carcinoma, 295
- Implant, cochlear, effects on spiral ganglion, 53
- Letter to Editor, 316
- Experiences with preschool children, 587
- Habituation with and without, 593
- Histologic evaluation of temporal bones with, 610
- Incus interposition, 568
- Infrahyoid and suprahyoid muscles, topographic arrangement of motoneurons innervating the, horseradish peroxidase study (in cats), 259
- Interferon, comparison of sources in treatment of recurrent respiratory papillomatosis, 456
- And laryngeal papillomatosis, 2
- Internal auditory meatus, differential facial nerve function in tumors of, 39
- Intralaryngeal pressure exerted by endotracheal tubes, quantification of, 444
- Intralaryngeal release for tracheal anastomosis, 482
- Intraluminal polyps, giant, of esophagus, 344
- Intubation/laryngoscopy, difficult, in child with mandibular hypoplasia, 401
- Intubation, short-term, laryngeal injury following, 327
- Irradiation, preoperative, and surgery for carcinoma of base of tongue, 485
- Johnson**, Hosmer A.: early midwestern laryngologist, 470
- Jugular foramen neurofibroma, pathology of, 128
- Juvenile otosclerosis, 561
- Klippel-Feil** syndrome, conductive deafness and histological findings of removed stapes and, 202
- Labyrinthine** fluid pressures, effects of hyperosmolar solutions on (glycerol, urea, and mannitol tests), suppl 104
- Laryngeal atresia, congenital, histopathologic study of, 391
- Laryngeal closure reflex, effect of hyperthermia on and implications in sudden infant death syndrome, 24
- Laryngeal hemangioma, congenital, 448
- Laryngeal injury following short-term intubation, 327
- Laryngeal nerve crush for spastic dysphonia, 469
- Laryngeal polyps, pedunculated, sudden airway obstruction due to, 340
- Laryngeal spaces and lymphatics, current anatomic concepts, suppl 105:19
- Laryngeal webs, congenital, 317
- Laryngectomy, supraglottic, 14
- Laryngocele and laryngeal amyloidosis, 337
- Laryngoscope, posterior commissure, for carbon dioxide laser surgery, 361

- Laryngoscopy/intubation, difficult, in child with mandibular hypoplasia, 401
- Larynx, contact ulcer of, esophageal dysfunction in patients with, 228
- Paralyzed, muscle transposition in rehabilitation of, 478
- Sarcomas of, 81
